

Are YOU interested in YOUR rail service?

On Saturday 23.11.85, about 100 people who are, met in Kings Lynn to discuss the current and future levels of rail services between Kings Lynn, Ely and London. As a result of that meeting a group was formed to represent the interests of ALL rail users on the line:-

The Fen Line Users Association

A Front Organisation for B.R?

Although the inaugural meeting was addressed by Mr. Theo Steel, Passenger Manager, London and South-East, the Association is totally independent of British Rail. The main aim of the Association is to present and support the interests of all rail users to British Rail management, local, regional and national. The attitude of a united stand is certainly one that BR takes notice of. A representative group speaking with a strong, rational voice is listened to, individual suggestions and complaints often gain little credence.

A Group of Railway Fanatics?

Far from it! The meeting was attended by all types of rail users; companies and commuters, shoppers and supporters, staff and management, all of whom recognise the importance of rail transport in this area. A committee has been appointed which reflects this widespread interest, with membership being spread along the line from Ely to Kings Lynn.

How Does This Affect YOU?

How often have you felt like raising your voice in protest, or support, of British Rail and not known who to write to? How often have you wanted to make a suggestion for a better service and not known how to go about it? Now your voice can be heard and represented in all the right places simply by joining and supporting the Fen Line Users Association. The subscription is £1.00 a year and 25p for each additional family member who wishes to join. Simply complete the detachable slip below and return it to the address shown.

If you wish to know further details you will find a list of the Committee members together with their addresses and telephone numbers overleaf.

The Fen Line Users Association

Committee for 1985 - 1986
